SUMMARY

Full-stack developer with 3 years of experience in designing and delivering scalable, high-performance web applications. Passionate about optimizing user experience and eager to contribute to innovative, fast-paced technology teams.

WORK EXPERIENCE

Software Engineer , Turkish Technology

Mar 2025 - Present

As a Full Stack Developer at Turkish Technology, I played a key role in developing secure and scalable financial systems for the aviation industry. My responsibilities included:

- Leading merchant onboarding (İKS - İş Yeri Kayıt Sistemi) integrations to streamline business registrations.
- Developing and maintaining reconciliation and settlement modules to ensure financial accuracy and reliability.
- Integrating with multiple banking partners (Payten, Kuveyt Türk, QNB, and others) to enable payment flows.

Tech Stack:

- Java, Spring Boot, React.js, Docker, Kafka, CI/CD

Software Engineer , Scorp

Jun 2024 - Mar 2025

As a Full Stack Developer in the Payment Team, I contribute to building secure and efficient financial systems that enhance user experience and support seamless transactions. My work focuses on integrating payment methods and developing pay-in and cash-out processes within a dynamic, collaborative environment.

- Payment Method Integration: Implementing and maintaining integrations with payment gateways like Rapyd, Payermax, and others to ensure secure, scalable, and seamless payment solutions.
- Transactional Systems: Developing and optimizing pay-in and cash-out flows for reliability and efficiency.
- Collaboration: Partnering with cross-functional teams to deliver high-quality financial solutions.

Tech Stack:

- Django, Vue.js, Node.js, Docker, Jenkins, CI/CD, AWS, Cloud Firestore, Testing

Software Engineer, YapıKredi via Mindtech

Mar 2024 - Jun 2024

As a Software Engineer, I am responsible for designing, developing, and maintaining digital solutions for the Digital Channel Assets & Insurance Team at Yapı Kredi. My role involves ensuring the delivery of high-quality software that supports customer-centric products and services in the financial domain.

Tech Stack:

- Java, Spring Boot

Data Management Consultant , Odeabank via Mindtech

Aug 2023 - Apr 2024

As a Data Management Consultant, I contributed to the Data Warehouse (DWH) project focused on the commercial operations of Odeabank. My role involved designing, implementing, and managing efficient data pipelines and ensuring the integrity and accuracy of data to support business insights.

- ETL Development: Utilized Oracle Data Integrator (ODI) to design and implement ETL processes for extracting, transforming, and loading data into the DWH.
- Database Operations: Worked extensively with Oracle SQL and MS SQL Server to manage, query, and optimize data for reporting and analysis.
- DWH Implementation: Focused on building scalable, reliable, and efficient data warehousing solutions tailored to commercial banking needs.
- Collaboration: Partnered with cross-functional teams to deliver high-quality, data-driven solutions for business decision-making.

Software Engineer , KiraPratik

Nov 2022 - Aug 2023

As a Full Stack Developer, I was responsible for designing and building both the main application and the management system for the company. This role required me to leverage a range of technologies to create scalable and efficient solutions tailored to the business's needs.

- Main and Management Applications: Designed and developed key applications to support and manage company operations, ensuring a seamless user experience.
- Payment Method Integration: Integrated Paycell payment gateway, ensuring smooth and secure payment transactions for users.

Tech Stack:

-Angular, React.js, Redux, Java Spring, Hibernate

EDUCATION

Bachelor of Science in Computer Engineering

Hacettepe University

- GPA: 3.21 / 4
-

SKILLS

Languages & Frameworks: Java, Spring Boot, Node.js, NestJs, Django, React.js, Vue.js, Angular, Redux, Cloud Functions

Databases: Oracle SQL, MS SQL Server, NoSQL, Firebase

Tools & Platforms: Git, Docker, Kubernetes, Bitbucket, Jenkins, CI/CD, AWS, Kafka, Hibernate

Architecture: Microservices, Event-Driven Architecture, REST APIs

Languages: Turkish - Native, English - Full Professional Proficiency
